

## CITY OF GLENWOOD

# Raingarden Blitz

### PRACTICE:

- Raingarden
- Retention & Detention Ponds
- Tree Trenches

### BENEFITS:

- Prevent sediment and excess nutrient travelling downstream

### PARTNERS:

- Pope Soil and Water Conservation District
- City of Glenwood
- Minnesota Board of Water and Soil Resources

### INSTALLATION:

- May-June of 2021

**PROJECT:** Biofiltration practices such as raingardens, tree trenches and bioswales reduce the flow rate and pollutant load of runoff from impervious surfaces such as driveways, roofs, and roads within an urban setting. Lake Minnewaska is the receiving benefitted waterbody.

<b>FUNDING:</b>	<b>Project Planning and Design</b>	<b>100%</b>
	<b>Cost Share Amount:</b>	<b>75%</b>
	<b>Landowner Amount</b>	<b>25%</b>

\*Funding will be prioritized on the City of Glenwood Stormwater Assessment Study.

#### Clean Water Fund:

Protecting and restoring Minnesota's waters for generations to come.
