## Grant Activity

Grant Activity - Project Development			
Description	The funds will be used for staff implementation of the Buffer Law. This includes review of maps, site visits, and associated paperwork track and report the implementation. This will include staff time with alternative practice determinations and our review and verification of all parcels with new County imagery. This will also include assistance for any landowner in implementing practices that will enhance the effectiveness of a required buffer.		
Category	PROJECT DEVELOPMENT		
Start Date	28-Dec-20	End Date	31-Dec-22
Has Rates and Hours?	Yes		
Actual Results	<p>The funds will be used for staff implementation of the Buffer Law. This includes review of maps, site visits, and associated paperwork track and report the implementation. This will include staff time with alternative practice determinations and our review and verification of all parcels with new County imagery. This will also include assistance for any landowner in implementing practices that will enhance the effectiveness of a required buffer.</p> <p>Pope SWCD staff went into BuffCAT software along with the counties interactive map to check for buffer compliance along ditches and public waterways. After working through each of the parcels in the county, We compiled a list totaling 24 possible violations, 20 of which were on public waterways with the other 4 involving ditches. Landowners were then contacted to ask for permission to conduct a field site check on the possible buffer violations.</p> <p>The next step in the process was to go out and physically measure the potentially non-compliant buffers. If a buffer was found to be non-compliant the proper enforcing agency will be notified. Pope SWCD has fill out a noncompliance form for the enforcing agency. This form would included information like location, landowner contact information and a map of the parcel. After informing the proper agencies it will be their responsibility to follow up with landowners and deal with consequences if necessary. Our role then would be to provide the information related to the parcel for this process and to assist the county as needed in attaining compliance. We have about 9-10 notification letters in process that will be sent in early January 2023. All reporting has been completed in BuffCat. Our entire County has been reviewed in 2022 per our policy to review when new imagery was available. In addition, a filing system was developed for documentation.</p>
